

The Garland Amateur Radio Club had a very good turn out last Saturday and sold a large amount of equipment, much of it going to other area clubs. We still have a lot left and have added a number of items to the earlier list so be sure to look it over again.

This list has been scrubbed with all sold items removed and a few with more complete descriptions than available previously.

Contact Lowell Allen KD5RFD at lowell_allen@hotmail.com with any questions or to make arrangements to buy any of the items.

Please pay attention to the legend at the top of the list for some coding details including the yellow highlighted last time updated.
